

# Anka Tool & Die Inc. Products & Services

**MADE IN THE  
U.S.A.**

ANKA Tool & Die Inc.  
150 Wells Ave.  
Congers, NY 10920

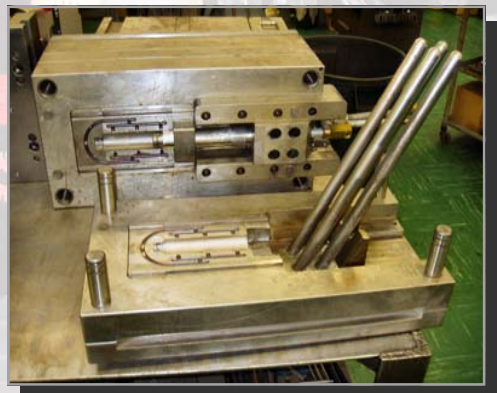

**ANKA Tool & Die  
provides numerous  
services including:**

- Custom Mold & Die Building
- Mold & Die Repair/Revision
- High-Precision Tooling
- CAD/CAM Engineering
- Design & Development
- CNC Milling & Turning
- EDM Capabilities
- Grinding
- Welding
- Plastic Parts Molding & Production
- Ultrasonic Assembly
- Hot Stamping
- Inspection

# Quality American Products

ANKA Tool & Die, Inc. was founded in 1970 by Anton Karl in a small workshop in West Nyack, New York and remains a family business today. We operate out of an 18,000 square foot facility in Congers, NY.

Over the past 43 years ANKA Tool & Die has established itself as a producer of high quality tooling, products, and services. Our methods and expertise can provide you with tooling that ranges anywhere from short run to millions of piece parts, through the use of single to multi-cavity molds. With our highly skilled toolmakers and design staff, we have full capabilities to take your products from concept, all the way through production. We can work with your printed drawings or interface into our CAD/CAM systems via IGES, STEP, DWG, DXF or similar files using industry-leading Pro/ENGINEER and TekSoft software.

## Tooling Department

### Milling

2-Milltronics MB-19  
CNC Centurion-6  
Milling Centers

1-Milltronics VKM3  
CNC Centurion-7  
Milling Center

1-Fryer MB-14 CNC 3-  
Axis Bed Type Mill

6-Bridgeport Milling Machines w/ digital read-out & CNC support

### Turning

1-Tongil TNL-20 CNC gang type lathe

6-Lathes - 9" to 24"

### EDM

Charmille Wire EDM

ELOX EDM T50

Charmille EDM

AGIE-ELOX Mondo 2 EDM

### Grinding

Boyar Schultz Surface Grinder

Harig Surface Grinder

DoAll Surface Grinder

2-Mark 1020AH  
Computerized Surface  
Grinders

Deckel cutter grinder

Gorton cutter grinder

### Welding

Miller Dialarc Tig welder - 250A

Gas & Arc Welders

### Inspection

Micro VU 14" Optical Comparator with digital read-out

St-Industries 14" Optical Comparator with digital read-out

George Scherr  
Gear Tester

### Miscellaneous

DoAll band saw

Drill presses

Belt Sanders

## Molding Department

### Molding Equipment

5-Arburg 40 to 77 Ton Molding Machines  
2.2oz. To 4.6oz. with core pull.

4-Kawaguchi 120 to 242 Ton Molding Machines  
7.8 oz. To 20 oz. with core pull

Novatec Regenerating Dryers capable of drying  
14 different materials simultaneously

### Finishing Equipment

Kensol Hot Stamping Machine

2-Franklin Hot Stamping Machines

Dukane Ultrasonic Assembly Machine
